

## Statement on the situation in Ukraine

**Our top priority is to protect our employees and their families and help farmers to cope with this dramatic situation.**

*Libourne, March 9, 2022* - Ceva is deeply concerned by the dramatic situation in Ukraine and firmly condemns the violation of its sovereignty and the attacks on civilians.

Our #1 priority is to protect our colleagues in the affected region and show our solidarity with our customers. We have taken a series of measures in that sense such as providing financial support and organising the accommodation of our employees and their families who want to leave Ukraine, in neighbouring countries and in France. As the situation evolves rapidly, we are re-assessing and adapting our actions regularly to provide the necessary help to our colleagues.

As an animal health company, Ceva supplies essential goods and we strictly follow the recommendations and apply the measures taken by the French and international authorities.

A war is always a dramatic event where unfortunately civilians from all sides invariably suffer. We call for the rapid return of peace in the region.
